

Boulder Lake Campground

If you like to camp but want more than what our rustic campgrounds may offer, then give Boulder Lake Campground a try. The recent renovation added shower buildings, flush toilets. Electrical hookups are available on sites 9-16 and 40-54. New vault toilets and hand pumps still exist for those that prefer the rustic

camping experience. Six sites are available for small groups up to 16 people and four sites can accommodate large groups up to 30 people in addition to the 89 family sites. The campground has a picnic area, swim beach, and a boat landing. Fishing is good in the 362 acre Boulder Lake which has walleye, northern pike, bass, and panfish. Several nearby streams offer trout fishing, too. The nearby Wolf River has opportunities for world class white water canoeing, rafting, and trout fishing. Campsites fill up fast at this popular campground.
